you're such a pathetic human being, i literally told marshall to make the video after i recorded the whole call, i wanted it to be public.

"fucked up shit" ive done nothing of the sort, you're an extremely deranged person who made a video lying about me milking lisa trolls too, by showing how after you scrolling though over 2 years of my content, there was 14 videos, BIG DEAL? The most recent lisa videos were calling him illegal behaviour out. [@zRaineQ](#)

@Parlo_Gaming před 8 hodinami

Never lied, I have provided hour long videos, multiple page documents and im willing to voice call anyone including marshall, I am very open about every situation and have all the proof to back my sources up, you are a serial defamer who accuses other people of lying with 0 proof whatsoever. [@zRaineQ](#)

@Parlo_Gaming před 8 hodinami

You're completely (possibly deliberately) misunderstanding my point. The point Raine who is a serial liar and contradictarian is trying to state, is that i deliberately hid this video from public view which is a complete lie with no proof to back it up whatsoever. I gave marshall the video unlisted to his dms so he can take aspects of the video to then reference in his video. he didnt bother doing that whatsoever and completely rushed his video, then failed to debate me in his dms. he showed the images which were allowed on the server, if he claims the images were "NSFW", why did he show them UNCENSORED on the video, exposing more minors to that content? While i remained mature in his dms, he didnt, he stated "he doesnt care", and i have proof of all the messages, and then he unfriended me after the conversation.

@Parlo_Gaming před 8 hodinami

That's not what i said at all, Raine is derranged because he has initiated a misinformation campaign against me for the past 1.5 months, one of these lies was him claiming i "milked" lisa, by showing 7 videos i made on her over 2 years. that is not milking, and he completely negates the crucial context for why i made the videos, because he is overtly bias. @Noobboy27
